

To whom it may concern,

I am Abdul Fattah ELGHAZIRI Training & Development Manager in Les Laboratoires Servier Saudi Arabia. And this is to certify that I had the opportunity to train Mr. Abdulrahman Khatib on different occasions such as pharmaceutical product training and selling skills since the time he joined our institution as a medical representative in Jan 2010 until his departure.

I conducted the initial training for him assessing his knowledge, skills, and overall attitude and with immense pleasure I recommend him as he showed the following competencies:

1. Fast learner with excellent scientific background
2. Excellent ability to express himself & deliver what he has learned in a precise way.
3. Presentable
4. Excellent presentation skills with fluent English language & good accent
5. Calm
6. Persistent
7. Result oriented
8. interactive

This is where Mr. Abdulrahman Khatib succeeded in our training environment of really tough & stiff standards And can pass his knowledge and acquired skills to anyone he interacts with, thus helping any Organization he works with in building teams and achieving tasks.

I could recommend with pride Mr.Khatib & I would be happy to receive any contact from you for further clarification or recommendations

Yours sincerity,

Abdul Fattah ELGHAZIRI
Jeddah 30/12/2015
